EVENT DESCRIPTION:

The motto of the event was to create awareness on Career Opportunities available in Japan. It was set as an interactive session among the Students and the Chief Guest. The Chief Guest, Mr. Ishida started the session by explaining 3 things which he considered as Important Virtues that everyone should possess.

1. DREAM

2. EXPERIENCE

3. RESPECT

He shared his life experiences based on the virtues that led him to his success. At the end, students who cleared the N5 level of Japanese Language Proficiency Test received their certificates from the Chief Guest. The Chief Guest and his employees who were part of the session were presented with a memento. The event was quite informative and motivational and the students were actively interacting with the Chief Guest and his employees who were part of the session.

At the end of the Session, A group selfie was taken by Mr. Ishida with the Participants.

KPRIET offers session on 'Career Opportunities in Japan'

Students receiving International certification during the session.

KPRIET Institute of Engineering and Technology (KPRIET) organised a special interactive session on 'Career Opportunities in Japan'.

KPRIET enables the students to pursue higher education in eminent foreign Universities and employment in native speaker's companies in the home country

by ensuring that the students opt for International certification and obtain it.

Employment opportunities for Indian students in Japan-based companies highly focus on technical skills and proficiency in Japanese. The Centre for Foreign Languages, KPRIET, has been offering Japanese language courses and internships in Japan-based Indian Companies. All the enrolled students obtained International

certification by clearing the N5 level and preparing for the N4 level.

KPRIET's Centre for Foreign Languages (CFL) offers training in five languages: German, Japanese, French and Spanish. The centre orients the students towards the opportunities to learn a new language and trains the students based on their specific needs, alongside exploring career opportunities in their respective countries.

COVID-19 IS NOT OVER; FOLLOW THE RULES!
